News From Your TOWN HALL

Under a new law it is not necessary to register a request for homestead exemption in the City and County. You must register a request for exemption in the County Tax Assessor's office by the month of November 1943, before April 1st, and he in turn will furnish the Town Assessor, with a duplicate of your request.

Increases are the order of things in the Town Hall. The water department's income for the month of November 1943 was \$2,700, November 1942 it was \$3,600 and for the current November \$4,700, an increase this year of about one-third.

There is a list of requests for water meters of approximately fifty awaiting the arrival of them already ordered by the Town.

Fines and forfeitures for the month of October and November 1942 were \$3510.85 while for the months in 1943 they were \$5773.05. In November 1942 they were \$2536, while for the same month in '43 they are \$4196.

The matter of a loading lot for the beer pickers seems to be at a standstill. Reports are that an offer made by an owner to donate a site to the town is not being complied with.

The Mayor has been spending some time with officials of the U. S. Public Health Service and the State Health Department. These gentlemen have come to the community to inspect and consider the general sanitary conditions under which we grow, harvest and pack the immense amount of foodstuffs shipped each year. When it is remembered that great percentage of these foodstuffs go to the armed forces it might be well to pay strict attention to what these health officials say concerning conditions.

Community Xmas Tree To Be Held Xmas Eve At Seven Thirty

The annual Community Christmas Tree sponsored by the local Rotary Club will be held on Friday night the 24th at 7:30 p. m. at the Woman's Club Building and grounds, according to Ralph Freeman, Chairman of the Committee.

While there is difficulty in securing toys, candies and nuts we have been able to secure a sufficient amount, we believe, for something over 400 children, said Mr. Freeman.

Provisions are being made with the Salvation Army of West Palm Beach and the committee will distribute twenty or more Xmas baskets to needy families in the Glades.

The baskets will each have chicken and the appropriate foodstuffs to provide a suitable Xmas dinner for the family. This is the seventh consecutive year for the Community Christmas Tree.

"Is This War Or Armageddon?"

Every seat was taken as Pastor Harlan of the Seventh-Day Adventist church pointed out the seven words of Bible Prophecy that doomed Hitler to defeat before he started his campaign in which he hoped to gain world supremacy. Basing his sermon on the ancient prophecy of Daniel, the second chapter, Mr. Harlan pointed out that this prophecy has accurately portrayed the history of the world from the time of ancient Babylon to the present time.

"The prophecy also points out the future of the world to the setting up of the Kingdom of God," said Pastor Harlan.

Gasoline Scarcity In Glades Area Hindering Civilians

A Majority of Dealers Have Exhausted Their Limited Quotas

Travel by passenger car in this area during the holidays seems certain to be seriously curtailed due to either no supply of gas, or complete exhaustion of quotas.

A majority of stations in the Glades were either closed with "no gas" signs, or rationing strictly regular customers, and they must be farmers, for the past two days.

Reports have come in from northern points in the State where through passenger cars were allowed only one ticket's share—2 gallons.

One distributor in the state had his requested quota of 150,000 barrels for January of 1944, while for the same month in '43 they are \$4196.

A check of the filling stations disclosed that a person could not obtain a necessary errand will be given a minimum amount of gasoline, but the rest of the year, and maybe not then.

It is generally understood that farmers in the area find it hard to get or cultivating will result in severe action.

When officials of the Ration Board were consulted, it was definitely stated that if all filling station operators would require proof that a ration book is bona fide, and not one of the many counterfeit or stolen books, the excess illegal use of gas by negroes and others would be curtailed in the majority.

It is common knowledge that thousands of gallons of gasoline are being used illegally by Glades drivers either through stolen, counterfeit, or otherwise surreptitiously secured books.

It was pointed out by one official that just as soon as the enforcement officers get around to this area for a real checking up, which may be going on at the present time, then the "fun will begin to fly."

WOMAN'S CLUB HAS CHRISTMAS PARTY

The Senior Woman's Club held open house at the community club rooms Wednesday night, December 15th, for a business session, presided over by Mrs. Luther Jones. The treasurer reported a balance of \$130 and the club members announced that \$28 has been realized from the sale of Christmas greeting cards. Mrs. Jane Neal was welcomed as a new member.

The group voted to purchase three dozen song books and encourage more group singing.

Miss Christine Taylor, Miss Louise Friedheim, Miss Carolyn Fredlund, Miss Caroline Cone and Miss Norma Weeks sang "White Christmas" and other Christmas songs, accompanied on the piano by Miss Beverly Lutz.

Mrs. Jones and Mrs. J. Winfield Mosley poured at the lace covered tea table which was centered with a bowl of poinsettias, flanked on either end with red candles in silver candle holders.

Air Wacs are assigned to the air corps and fill positions of writer, stenographer, secretary, stenographer, clerks, chauffeurs, mechanics, parachute workers, meteorology, and other duties. Many other attractive jobs adapted to women's ability, as in civilian life, except you're in the Army.

JOHN LEONARD IS SPEAKER AT PTA

John L. Leonard, Supet. of County Schools, was the guest speaker at the regular meeting of the PTA held in the school auditorium Monday afternoon. He told of the many difficulties of running a public school system during war conditions, pointing out that housing facilities for teachers is one of the most serious problems. Also, due to war conditions, many teachers have gone into defense jobs, creating a shortage in teacher personnel. He said that Palm Beach County has lost 50 teachers this year, with Lake Hrabar, who leads and Belle Glade second.

Mrs. James Weiringer was in charge of a musical program presented by members of the first, second and third grades. This included two songs and selections played by her Rhythm Band. Ray O. Jameson gave the devotional.

Mrs. F. D. Stevens presided over the brief routine business session when the first grade and Junior High received the room count award.

Juvenile Delinquents Caught By Radio And An Honest Citizen

Two things stand out prominently in a story having its climax in Belle Glade this week. The first is a demonstration of the efficiency of the radio short wave telephone system with a station in Guy Bender's office which, in turn, maintains twenty four hour contact with the road patrol. This system enables almost instant broadcasts to the approximately 140 road patrolmen in the state information about any crime or characters wanted.

The second is the result of what we have come to know as juvenile delinquency. Claude E. Richardson, 21 years old, with a previous police record and James E. Sawyer an eighteen year old with no previous record, left their place of work and went to Lake Wales where they stole five apparently new retrofitted tires. As long as the tires had a 39 Chevy fastened to them they just rode in the car to Belle Glade, removed the tires and hid the car and tires in the high grass.

Their downfall came, however, when they offered Jay Morris the tires at a price, Jay, realizing that something was wrong, notified the "law." Patrolman Drowne had received a short wave call immediately after the car was missed in Lake Wales and his Sherlock nose led him and Deputy Motes to the boys on the streets of Belle Glade, following Mr. Morris' information.

The car had been abandoned but the tires were carefully cached to await a conscious black market purchaser.

It seems that Sawyer was reluctantly led into the escape by the experienced Richardson just for the sake of some easy spending money.

The boys will spend what money they get for the next several years easy—through the bars.

There are several negro scout troops in the Glades. An appeal was made for more

STORE THOSE POTATOES AT HOME!

While those Irish potatoes are easy to get—and while commercial storage facilities are crowded with war materials—it is your patriotic duty, and your opportunity, to take home a hundred pounds or so of spuds and store them for winter use. The Food Distribution Administration says, you can store potatoes in your backyard by putting straw on the ground, potatoes on top, then covering with straw protected by a layer of earth.

A basement or closet, a rack that is airy, not too damp, not too warm (but never freezing), and in a dark place, will prove a money-saver and a guarantee of potatoes on your menu all through the winter.

Photos—U. S. Department of Agriculture.

Excellent Record of Former Scouts Cited By Speaker

"Seventy seven per cent of the American boys decorated," pointed out that only one out of every three or four boys are able to participate in Scouting. All Neilson was elected President of the Council and John Harrington one of the Vice Presidents. W. P. Risk was elected Chairman of the South Glades District which includes Belle Glade, South Bay and Lake

Harbor. Among those attending this section were: N. T. Taylor, Joe Friedheim, Frank Miller, Harry Hummel, R. W. Kidder, Mrs. Breger, Mrs. Clayton, Mrs. Stevens, James Jamison, E. C. Munim, Dr. and Mrs. J. R. Neller, and Roy South, George King, Robert Hummel, Albert Stevens, John Neller, Robert Taylor and Philip Clayton.

There were approximately 30 persons from the South Glades area and many from North Glades area attending.

A small negro scout appeared before the microphone and told the audience that his race appreciated the opportunity to participate in scouting and that 430 negro scouts and cubs were enrolled.

There are several negro scout troops in the Glades. An appeal was made for more

denominations unite for Christmas Service. Various churches of the community have joined in arranging a special program of Christmas music and community singing to be held at the Community Methodist church on Sunday afternoon.

Our boys must keep on fighting the war with their brains. Keep on BACKING THE ATTACK.

SERVICE MEN who FIGHT and WRITE

JAMES WADDELL AMM 31e James son of Mr. and Mrs. B. Q. Waddell, recently graduated from the Aviation Machine School at the Naval Air Station in Jacksonville, was promoted to Aviation Mechanic's Mate third class. He entered the Navy last April and received his "best" training at Jacksonville. Waddell is now a qualified aviation mechanic and will probably see service with a Naval Air Unit.

CLARENCE PATE MoMm 21e Motor Mechanic's Mate Pate writes from somewhere in Sicily. "We have been pretty busy the past two months. I wrote a card the other day and we were under way at the time, that ascertains for the bad pennmanship, as this old Mediterranean can get plenty rough at times for this flat bottom boat."

At present we are in Port and I have had liberty today from 1200 to 1800, during that time I saw a movie, the first one I had seen in quite some time. You know our contact with the outer world is quite remote. I hope our operations does not interfere with my liberty as next time I would like to go on a sight seeing tour of this city. I would especially like to see the

Potatoes, Cabbage And Celery Movement Is Rapidly Increasing

RATION DATES

Stamp No. 29 in Book 4 is good for 5 pounds through January 15.

Gasoline In 17 east coast states A-8 coupons are good through February 8.

Shoes Stamp No. 18 in Book One good for 1 pair. Stamp No. 19 on the "airplane" sheet in Book Three, good for 1 pair.

Meats, Fats Brown stamps L, M, and N good through January 1. Brown stamp P becomes good December 12 and remains good thru January 1, 1944.

Processed Foods Green stamps A, B, and C in book four, good through December 20. Green stamps E, F, and G in book four, good through January 2.

Too Many, Too Long Is The Story On String Beans In The Glades

With an average of ninety cars for each of the six working days of the week, the Glades has reached its peak of car movement for the fall season. Too many beans have knocked the bottom from the price of a good proportion, however, will make whatever there is rolling worth some money within a few days.

Potatoes are coming in and the supply will become more generous within the next two weeks. The prices for good potatoes are the ceiling—\$3.85 per Cwt. with a good deal of them going for \$3.50. The demand exceeds the supply, and this condition is expected to continue.

Celery shipped from the Pahokee-Canal Point area brought \$3.50 to \$4.00 per crate. This is the highest price for celery in the market for the next two weeks. Radishes, a specialty crop, are moving well.

One car of peppers moved from the south end this week, with a good price. Cabbages are gradually building up in volume of movement and a freeze in the Texas fields, which is rumored, will bring the ceiling price with anything called a cabbage moving.

The following is the movement for the past week and the season to date:

Leon County Farmers Make First Visit To The Glades Areas

A. R. Richardson, Mayor of Tallahassee and H. B. Franklin, an Agriculture Commissioner, were employed by the Tallahassee Chamber of Commerce and financed by private donations of business and professional men, led a party of Leon County farmers to the Lake Okechobee section during the week.

Peter J. Cunningham, lawyer of West Palm Beach, has entered the race for Congress from the Nex Sixth Congressional District, subject to Democratic Primary. This District comprises eleven counties and has a total population of approximately 200,000. The following counties are included in the new Sixth District:

Broward, Palm Beach, Martin, St. Lucie, Indian River, Okechobee, Glades, Lee, Hendry, Charlotte, DeSoto.

He says if nominated and elected he will work for the reduction of freight rates and the right of the Florida sugar growers to grow all the sugar they can sell. He stresses the point that the United States must be prepared for war at all times.

He states that after the War we should use many of our smaller army camps, hospitals and equipment for the isolation and treatment of all persons who suffer from highly contagious and infectious diseases and who are unable to procure hospitalization and treatment in their own communities. This candidate, says that there are more than 60,000 deaths in the United States each year from tuberculosis and twice this number become chronic invalids. That if these people were given hospitalization and treatment in the early stages of the disease, the mortality scale would be very low. Another highly infectious disease takes approximately 100,000 lives annually, not to mention thousands who go blind and insane. Cunningham claims that his Clean Health Program would save more than 50,000 human lives annually, at a minimum cost to the taxpayers.

This candidate believes that

The letter-rate hasn't gone up yet; so what's the matter with getting off a few extra Christmas mis-sives to the boys in uniform?

A Fraud

A phase of the Wagner-Murray Bill now before Congress, to broaden the Social Security Act, of which not too much is said by its supporters, is cost of the proposal. The old fallacy has been encouraged that a magnanimous government stands ready to "give" something to the people once the measure is passed. Provisions for medical and hospital care contained in the bill are heavily stressed with the inference that they too will be free.

Such high-pressure sales tactics are fraudulent. The government will never give anything away because it can give nothing until it first takes it from the people. If the Wagner Bill is made into law, the government will begin immediately to collect additional billions of dollars in taxes to pay for the "benefits" it will later hand out. As a doctor recently told a patient: "If you earn \$200 a month, your (social security) bill will be \$12.00 a month, six times more than is now taken out of your pay check—or \$144 a year. Your employer will pay a like amount, which means that that your bread, your car, your refrigerator, and everything else you buy would have more hidden taxes wrapped up in it . . . If you are self-employed, you deduct seven per cent . . ."

Every time a deduction is made from the salaries and wages of the people and turned over to government, the power of the government over the people grows accordingly. During wartime the people accept necessarily high deductions, together with unprecedented official domination over their personal affairs, without a murmur. This should not be taken as any indication that they will tolerate a permanent halter on freedom in peacetime, even in the form of the Wagner Bill.

Town And Farm
In Wartime

As a part of the government program to conserve livestock feed and make the best use of available supplies in producing the maximum volume of livestock products, WFA has taken the following steps: (1) elimination of the supply of the subsidy the Commodity Credit Corporation has been paying on corn moving from surplus to eastern and southern deficit areas; (2) an increase of 20 cents a bushel in the price of feed wheat on and after December 6; and (3) an offer to buy corn during the remainder of the month at the old selling price in approximately 150 counties on the fringe of the corn belt where the new ceiling on corn (effective December 6) represents a reduction in price. OPA raised the maximum price of corn 9

cents a bushel at Chicago to correct inequities in the previous regulation. At the same time, the prices of oats, barley, and sorghum grains were "frozen" at the highest prices of the five day period, November 29 to December 3, pending issuance within 60 days of a permanent regulation on these feeds.

Brown Points for Waste Fat
The housewife may now receive one brown ration point for each one-half pound of salvage kitchen fats she takes to her retailer. In addition, she will continue to receive four cents a pound. Retailers will not give points for less than one-half pound, nor for any fractional overweight.

Increase in Apple Prices
Increases in apple prices over those for 1942 will mean that a 28-ounce jar of apple butter will cost from 3 to 4 cents more at retail, OPA reports. This reflects an increase of approximately 80 cents to \$1.65 a hundredweight in apple prices and an increase of approximately 7 and 1-2 cents to 15 cents a pound

in apple chops. The method by which dealers in apples for the home consumption determined their maximum prices in sales prior to retail was changed. With maximum prices for terminal markets the same as those for rural markets, apples tended to become scarce in rural markets. So, a premium of 3-8 of a cent a pound now is allowed on sales in rural markets.

Syrup Prices Are Higher
Retail prices for cane syrup have been increased by OPA as a result of refiguring the parity formula, which resulted in increased returns to sugarcane growers. Increases in No. 10 cane—slightly less than one gallon—are about 10 cents for country cane syrup, formerly known as Louisiana cane syrup, and 4 to 5 cents for commercial cane syrup, formerly known as Georgia cane syrup. Accumulators, mostly country store operators, have been granted an increase from 1 to 2 cents a gallon for their handling charge.

Gift Packages Point Free
Gift packages of jams, jellies, fruit butter, preserves, and non-citrus marmalade that were packed before October 23, for sale as Christmas gifts may be bought point-free through January 8, OPA said recently. Because the packages were made before foodstuffs were rationed, and because they are often assembled in packages with such highly perishable products as

cakes and cookies, it is necessary to sell them quickly to prevent waste.

Lift Restrictions on Bindertwine
Farmers may now use bindertwine where needed in growing, harvesting, or shipping agricultural products. Previously, use of binder twine was restricted to mechanical self-tying binders.

Packed Food Products
Exempted from price control are sales by home canners who sell less than 1,500 quarts a year of packed fruits and vegetables, OPA reported recently. OPA also announced that consumers will pay more for canned sweet potatoes, brined cherries, marshmallow cherries, canned mushrooms, and processed dried prunes and prune products.

Cutups Released To Civilians
Nearly a million cases of food material soon will be released to civilians. The cutups are being released from specific reserves held and owned by can-

ners but set aside by them for government use.

Suspender Buttons Back
Suspender buttons are to be restored to men's work pants, according to an amendment of WPB order L-181.

Most Cottage Cheese Rationed
Practically all creamed cottage cheese is under rationing because brown stamps now are required for this type of cheese containing 4 per cent or more butterfat. OPA pointed out. Previously, only creamed cottage cheese with a butterfat content of more than 5 per cent had been rationed under the meat-fat cheese program.

Feeder Sheets In Tablets
The number of sheets in table-lets, pads, and related products made from newspaper paper may be reduced, according to OPA, because of the two \$4-a-ton increases in newspaper paper during 1943. On the average, seven sheets may be removed from a

5-cent pad and fourteen sheets from a 10-cent pad.

To My Friends of the Glades
and Palm Beach County

I will be a candidate for Representative in Group Two, Palm Beach County, in the Democratic Primary in 1944.

I have been a resident of the Glades Section for 20 years and am thoroughly acquainted with all the problems confronting this part of Palm Beach County, as well as the County as a whole. If elected, I will do my best to help solve these problems and be a true representative of the whole County.

Your support and vote will be deeply appreciated.

Sincerely,

F. A. (Dick) LeFils

IF YOU HAVE NO CANNER, MAKE ONE

"If you have no home canning advice that no-canner vegetables be canned in a pressure cooker because a pressure cooker is the only household utensil that can retain a much hotter than boiling temperature. High temperatures are desirable when canning beans, peas, corn, greens, etc., because they insure more certain destruction of bacteria."

Because the canning can be done more quickly, But," says Gladys Kimbrough, Home Service Director of Ball Brothers Company, who heartily approves using a pressure cooker whenever possible, "the time is at hand when we must be practical. Don't worry if you can't buy a pressure cooker for sure; you can find a wash boiler, hard can, baby bath tub or some deep container in which water can be boiled. Check a few strips of wood together to make a rack or platform to hold the jars about one-half inch from the bottom of the container. First something, even if it has to be a board, to use as a lid. Then you will have a water-bath canner for those Victory garden vegetables."

"You are afraid to eat vegetables canned that way? Nonsense! A lot of folks who say a water bath can't be used were raised on vegetables canned by that method. But let's get three things clear before we go any further: first, there have been a few instances of poisoning from eating canned vegetables; second, all such danger can be avoided by boiling the canned vegetables 15 minutes before tasting or serving; if left from one meal to the next, third, a pressure cooker is not a guarantee against spoilage. There will be spoilage if the pressure gauge registers too low or if poor judgment is used in the selection, preparation, and packing of food into the jars. And don't let anybody tell you otherwise."

"Now, back to the water bath. The water should be steaming but not boiling when the jars are lowered in. The jars should be covered the tops of the jars two or more inches. No water will get into the jars if directions are followed. Lockmiller, Mrs. William Motes, Mrs. Rosa Nash of Belle Glade, Mrs. F. M. Shaugnessy and Mrs. C. L. Wilder of Pahokee.

Following the supper a business meeting was held when plans were discussed for a St. Patrick's dance.

Mrs. McCabe was given a handkerchief shower at the close of the meeting.

Jimmy Allen has returned to Norfolk, Va., Naval Training Station after a furlough with his parents, Mr. and Mrs. W. C. Allen and a brief visit with his sister, Mrs. Floyd Abstein at Spartansburg, S. C.

Mrs. F. S. Willis and infant son, Daniel Hoover, have returned from the Good Samaritan hospital at West Palm Beach.

William Boots stationed near Tallahassee was here on a recent furlough, visiting relatives in South Bay and his brother, V. A. Boots and family in Belle Glade.

Mrs. H. C. Willis, Mrs. G. J. Barstow and Mrs. F. W. Mutchler attended the Christmas Party of the Belle Glade Home Demonstration Club at the home of Mrs. Nell Scullen Thursday.

W. H. Rawle of Charleston Navy Yard visited relatives and friends in South Bay Monday. He plans to return home soon. Mrs. Rawle has been visiting her parents, Mr. and Mrs. E. E. Forties and her brother and wife, Mr. and Mrs. J. K. Forbes in Jacksonville.

Rev. A. B. Beck, former pastor of the South Bay Community church, now making his home in Baldwin City, Kansas, with his sister, Miss Genevieve Peck, has recently accepted a pastorate at that point.

CINEMATIC CHATTER

By Malcolm Miller
It will be welcome news to the patrons of the Everglades Theatre, Belle Glade, when they read this column and learn the glad tidings that those comrades of the air and film, Bud Abbott and Lou Costello are slated for the Owl Show, this Saturday, and the Sunday-Monday run in one of Damon Runyon's

way, Eugene Pellette, Patsy O'Connor and Richard Lane and his delightful voice, along with Leighton Noble and his Orchestra. Loaded with hit tunes and gufaws I am sure this will be one of the most enjoyable slapstick comedies of the season.

Warren Williams, sinister villain of the screen and now in more heroic roles, comes to the screen Tuesday-Wednesday with Ann Savage and Eric Blone and a very good cast of helmsmen in a mystery show under the title of "Passport to Suz." This show is said to be loaded with hair-raising action and a tender romance to help the unrelenting along.

Thurs.-Friday brings Merle O'Brien and Brian Aherne in an interesting drama under the title "First Comes Courage." This one has a full bodied story and with the sultry eyes of the principal stars I am sure it will be a show that all will enjoy.

Saturday brings back Hopalong Cassidy, who is William Boyd, in another of his well de-

scribed Western shows under the title "Border Patrol." This is a ers I feel you will like this one Harry Sherman production and . . . if you like Westerns.

HOLIDAY GIFTS

We have had to make a special effort this year to obtain suitable gifts for the Holiday Season as so many items are manufactured of critical war materials.

We are gratified with what we have been able to accomplish—we are sure you will be pleased with the many beautiful things we have. May we suggest that you shop early.

Our gift shop has been enlarged.

"We Are Buying War Bonds—Are You?"

Part of Sgt. Edward Stranbe's left foot was shot away at Ferryville, near Bismarck, North Africa, at Balthasar General Hospital, states island, N. Y. They are building up his foot again. Sgt. Stranbe, from Perth Amboy, N. J., buys War Bonds regularly.

Sgt. Bernard Helle, 22, of New York, was wounded by snipers during the Sicilian campaign. His grandparents live in Naples, and he has a brother in the army. Both buy War Bonds regularly.

Technician 5th Grade John A. Winkler, 25, of Door, Mich., lost his right eye, three fingers and suffered chest wounds from shrapnel in the fight to capture Tunis. He is now recovering at Hallsboro and is a regular War Bond purchaser.

Pvt. Bernard Heidemann's left leg will be two inches shorter when he is discharged from Hallsboro. He was wounded by a German bullet during the operations in Sicily last August. His home is in Chicago. He has been in training since Sept. He's buying Bonds.

The nickname of Pvt. Milton Lieberman, 27, of Brooklyn, is "Clark Gable." He was wounded in Sicily last August and has been at Hallsboro since October. Every day 11:20 is taken out for War Bonds Lieberman is buying. How many do you buy?

Dog Attacks Child

A small negro child living at the South Bay Sugar Plantation was struck down Friday by a vicious animal. Supt. George A. Yon took her immediately to the emergency hospital for first aid where several stitches had to be taken to close the wounds.

Too Late To Classify

By RUSSELL KAY
A recent dispatch in the Florida Times-Union reads as follows:
"For the first time in over 10 years, there is no real estate to advertise or sell for taxes this year in Gibsonsville, N. C. Collection of 1942 taxes on real estate was 100 per cent in the community, according to information presented to the National Association of Assessing Officers."

While we can understand the justifiable pride with which this North Carolina community makes this announcement, we can't help wondering why certain Florida political subdivisions are hiding their light under a bushel, for if the records of Col. Jim Lee's office are accurate, it appears that we have in this state not a single community but several counties, with such a record.

Collections on the state's 1942 tax roll have been phenomenal. With only one county missing, delinquency on the roll, which was closed following the sale during the summer, reached an all-time practically unheard-of low, the delinquency figures being only 11 per cent. Of a real estate roll totalling \$20,215,537, only \$216,992 in certificates were sold to the counties. Only one county had a delinquency in excess of 5 per cent; only eight were over 3 per cent; thirty had less than 1 per cent—and here's the big story—three counties, Bradford, Union and Charlotte, reported no delinquency at all.

This reflects a healthy condition and speaks well for State and County officials charged with collection. It is a fact we should make known to the world, for home-owners and investors are attracted to those states and communities where tax delinquency is lowest and all are required to meet their own obligation.

One of the reasons for poor collection in the past has been that many people objected to paying when the saw fellow citizens get by with delinquency year after year and finally settle for a few cents on the dollar.

But the collection of taxes and the increasing of State and County revenues means little from the standpoint of the taxpayer if government makes no effort to effect economies and insists on squandering the "take" regardless of its size.

Unfortunately, today both federal and state government seems to operate on the basis that even the collections are good and the amount of tax money coming in is greater than ever before, there is no occasion to conserve, and instead of taking action that might lighten the burden they are up to their ears with plans for more spending.

At the last session of the legislature we passed a cigarette tax. It produced more revenue than anyone ever dreamed it would. But you can mark down in your little book right now that this tax will remain and others added to take more and more from the taxpayer, while government agencies will find ways and means of spending it regardless of the amount raised.

Is This The Last WAR and the ARMAGEDDON of Bible Prophecy?

Can You Picture FLORIDA without Newspapers?

Every hour of the day headline news of overwhelming interest to every person in Florida is being made all over the world. But without our modern communication systems and particularly our newspapers it would be next to impossible to find out what's going on.

estimate the part played by Florida's great dailies and weekly newspapers in furthering the war effort. Nearly a million people buy these papers—far greater numbers read them—the whole State relies upon them for information and inspiration.

Getting even closer to home, we couldn't know what local boys are doing on furlough—what the ball scores are—who's getting married and when—what's happening in the comic-strip world—what events are taking place all over town.

For this reason Florida Motor Lines depends upon such newspapers as this one to carry its information on bus service to those Floridians who travel. Florida Motor Lines, in turn, carries many newspapers to rural areas not served by any other transportation system.

All of us should feel proud of the fine job newspapers are doing to keep Florida in touch with the times. It's a strong and free press, serving free people—one of the first things the dictators would suppress if they had the chance! And it would be hard to over-

As fellow citizens of this State, Florida Motor Lines take much pleasure in helping to make near neighbors and good neighbors of all the communities we serve in Florida—linking them to each other and to the rest of the country, as newspapers do.

Holiday trains will be crowded with Service Men

Your staying home will speed his coming home

HOME for the Holidays! Happy mothers and their sons, wives and their husbands reunited after months of patient waiting. How much it means to those in the service and their families.

Thousands of men and women in uniform will be holed up during the holidays. Many families will be going to visit their boys in camp. Trains are sure to be crowded with these travelers from a week before Christmas until a week after New Year.

But this year travel space is especially vital. There won't be room for everyone who wishes to go. Extra cars and locomotives, formerly available, must continue to move troops and traffic vital to those on the nation's many battlefronts.

So before you plan a trip during the holidays ask yourself: Is it really necessary? Will it interfere with some boy in uniform homeward bound and the family anxiously awaiting his arrival. Your staying home will help to speed his journey.

All through the holidays the men and women of the Florida East Coast Railway will be working night and day to handle a huge extra load of holiday mail, express, military and civilian travel, in addition to the vital war materials and supplies that must continue to move. Your patience and understanding will be appreciated.

THE RUSH OF WAR IS ON THE WIRES

Day and night, the telephone is in the thick of war. Long Distance links a nation together and speeds its work.

So that necessary calls can get the right of way, the operator will tell you if the circuit you want is busy. You can help by canceling your call if it isn't really vital.

On calls you must make, we'll appreciate your cooperation when the operator says—"Please limit your call to 5 minutes. Others are waiting."

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY
INCORPORATED

SHORT-HANDED?

Save time, increase yields
with Du Pont sprays and dusts

VEGETABLE growers faced with shortage of labor can help reduce that problem—and get bigger, better yields, too—by turning to Du Pont spraying and dusting materials. These insecticides and fungicides, backed by extensive laboratory and field research, are effective and easy to use.

For example, Du Pont Copper-A compound—particularly important for copper-sensitive plants—can be washed into the spraying tank and is ready to use in half the time required for the older materials. Other Du Pont materials offer equally valuable time-saving advantages: Nullexform Lead Arsenate, for one, stays in suspension, spreads evenly, makes one spraying do the work of two.

Altogether, that means better control of insects and plant diseases, bigger and better yields, and fewer man hours. Don't delay. Order your Du Pont sprays and dusts today.

A FEW OF THE MANY DU PONT SPRAYING AND DUSTING CHEMICALS

Du Pont Spider Stick—A two-part compound which adds to more complete and lasting control. Sprays in a short time to control insects and plant diseases.

Du Pont Calcium Arsenate—Effective in controlling leaf-eating insects on potatoes, cotton and smaller berry plants.

**Broward Grain & Supply
of Belle Glade, Florida**

GLASS JARS FOR VICTORY CANNING

Plan to can every extra vegetable from your Victory garden and don't worry if your dealer hasn't jars with the kinds of caps you have been accustomed to using. Gladys Kimbrough, Home Service Director of Ball Brothers Company, tells us that very few of the all-time favorite zinc caps are left on the home front because zinc is needed on the battle front, but all Mason jars (any brand) with smooth, even top edges can be sealed with glass top seal or two-piece metal vacuum seal closures. Glass top seals consist of glass lid, rubber ring, and metal screw band. The rubber is placed around the projection on the bottom of the lid, then the lid with rubber is placed so that the rubber rests on top of the jar. The bands are screwed down tight, then loosened slightly before the jars are put into a canner for processing and screwed tight immediately after the jars are removed from the canner. After the jars have stood twelve or fifteen hours, the bands are removed and used to seal more jars with glass lids and rubbers, thus making a little metal go a long way. That's one reason Government officials smile upon home canners who use glass top seals.

Another good top seal for Mason jars is the two-piece metal cap, called vacuum seal. The lid is slightly domed shaped, lined with white enamel and has a rubber sealing compound around the outer edge to take the place of a regular jar ring—don't let anybody fool you—any sealing compounds contain rubber. If one is using old-fashioned open kettle (never use this method for canning vegetables), the lids are boiled a few minutes to sterilize, then used only to be dropped into boiling water and kept but if the jar of food are to be placed in a canner for processing. After the lid is placed on the jar, the metal band is screwed tight once for all. Be-tightening the band after the jars are taken out of the canner is likely to prevent sealing. The bands are removed from the jars twelve or fifteen hours after the canning is done used to seal more lids on other jars. Jars sealed with two-piece metal caps are suitable for all types of canning except even—a tightly sealed jar is likely to break when subjected to the dry heat of an oven.

Bands for glass top seal and vacuum seal caps are not interchangeable because a deeper band is needed for the glass lids, but the two have one thing in common. Neither is rust-proof. That's because of the zinc shortage, but a quick wipe after each use with a cloth moistened with paraffin will prevent serious rusting. It will save time and trouble too, if a cloth is pressed ahead of time and kept in one of those glass jars that can't be used for home-canning. Then when the cloth is needed, set the jar in a pan of warm water until the paraffin softens.

The "lightning" jar (so called because it is quickest to seal) requires very little metal and not too much rubber for sealing. Several manufacturers make this type jar. It seals with a glass lid and rubber held in place with wire balls. The wires used on one nationally known brand are of heat-treated, high-tensile, stretch-proof, spring steel. This is the ideal jar for home canning any year because it is so easy to seal. The rubber is placed on the sealing surface or shoulder, the lid comes next, then the upper ball wire is pushed up until it rests in the groove in the top of the lid. Pay attention to the lower wire, it takes care of itself and against the side of the jar and that's all there is to sealing it.

When buying jars, choose pints for peas, corn, and shell beans—and quarts for all other vegetables. Half-pint sizes aren't being made, and half-gallons are unsuitable for canning vegetables because it takes too long for heat to reach the center of the jar.

Mrs. Esther Bowman and son, Richard, are expected this week from Jacksonville to spend the holidays with her brother, Geo. A. Yon and family.
